

**REMARKS**

Claims 31-34 remain in the application with claims 31 and 34 being independent. No claims have been canceled, amended, or added as part of this Amendment. Applicant respectfully accepts the allowance of claims 31-34.

***Specification***

The specification has been amended in accordance with MPEP 2163.06 to merely clarify the embodiments described therein. In particular, the aperture 31 of the alignment device 16 has been clearly set forth.

***Drawings***

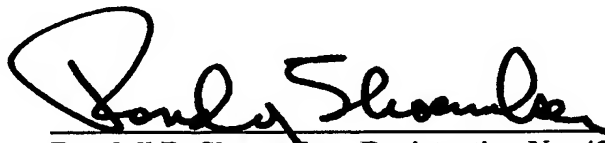

The drawings stand objected to under 37 CFR §1.83(a) for failing to identify the aperture recited in claims 31 and 34. Applicant respectfully submits the attached replacement sheet identifying the aperture 31 to overcome this objection.

Applicant believes the application is now in condition for allowance, which allowance is respectfully solicited. Applicant believes that no additional fees are required, however, the Commissioner is authorized to charge our Deposit Account No. 08-2789 for any additional fees or credit the account for any overpayment.

Respectfully submitted,
